# Centralized Remote Monitoring and Management by TeamViewer

Manage, Monitor, Track, Patch, and Protect Your Computers, Devices, and Software – All from a Single Platform

TeamViewer Remote Management

Ensure the stability and security of your infrastructure — TeamViewer Remote Management protects and monitors your devices, keeping you one step ahead of potential problems.

Get the most out of your IT with remote monitoring and management (RMM) tools, seamlessly integrated with TeamViewer.

Remote Device Monitoring
Stay ahead of problems by monitoring critical aspects of your devices.

- Monitor disk space, device health, CPU usage, processes, and more
- Manage running processes and services remotely with the built-in remote task manager
- Save time by setting up custom scripts with our all-new AI-powered assistant and executing them on multiple devices at once

Patch Management
Detect vulnerabilities due to outdated software, and deploy patches remotely.

- Patch operating systems and third-party applications
- Comprehensive and intuitive
- Automated and policy-driven

Endpoint Protection
Protect your systems against cyber threats, isolate and investigate threats, and respond in real time.

- Effective cyber defense based on machine learning and AI, powered by Malwarebytes
- Zero-day exploit protection
- Endpoint detection and response (EDR) capabilities, including Automated Remediation, Ransomware Rollback, and more

Asset Management
Instant and automated network discovery process and remote management of every IT asset.

- ✓ Oversee hardware and software assets in one dashboard
- ✓ Manage software and patch deployments remotely
- ✓ Check warranty information of your IT fleet

Backup
Back up your important business data in the cloud and never lose files again.

- ✓ Uncapped bandwidth
- ✓ Cloud storage — available anywhere, anytime
- ✓ Industry-grade security standards

Mobile Device Management
Onboard, manage, and monitor mobile devices in your ecosystem.

- ✓ Protect sensitive business data
- ✓ Manage app distribution and security enhancements
- ✓ Easily onboard new users

Take your IT service management to the next level.
